# INTRODUCTION

Mineral Processing Guru (PTY) LTD, commonly referred to as MPG, stands as a pinnacle in the mineral processing realm, boasting a Level 1 status and complete Black ownership. Specializing primarily in coal mining solutions while extending its expertise to various mineral processing endeavours, MPG emerged in January 2017 amidst the challenging backdrop of mining industry downturns. Fuelled by a vision to revolutionize the sector by offering cost-effective services and cutting-edge mining support solutions, MPG set forth on a journey to redefine standards.

From its inception, MPG has been committed to delivering unparalleled coal processing solutions, driven by a relentless pursuit of efficiency and excellence. With a firm resolve to become the premier name in both South Africa's coal processing landscape and international mineral processing domains, MPG continuously strives to exceed expectations.

The repertoire of services offered by MPG is meticulously crafted to cater to the diverse needs of its clientele, aimed at facilitating the achievement of both short-term objectives and long-term aspirations. Embracing innovation as a cornerstone principle, MPG fosters a culture of continual improvement, incessantly seeking avenues to enhance operational efficiency and elevate service quality.

Central to MPG's ethos is the unwavering dedication to maximizing the inherent value of coal products, ensuring that each client receives bespoke solutions tailored to their unique requirements. Backed by accredited facilities and employing globally recognized quality control procedures, MPG guarantees the highest standards of service delivery.

Equipped with state-of-the-art infrastructure, unparalleled expertise, and a skilled workforce, MPG stands poised to meet the demands of the market with unparalleled agility. Operating round the clock, seven days a week, MPG epitomizes dedication and reliability, aligning every endeavour with its overarching mission to redefine excellence in mineral processing.

# Our Mission & Vision

---

## Mission

To be committed to providing incompressible professional, and quality results in the best turn-around time.

To employ best practices benefiting both our clients and employees; and those that are environmentally friendly. To adhere to international testing standards, quality checks, and measurements.

To create value for our clients through leading cutting-edge technology and a highly skilled and motivated workforce.

## Vision

To become an internationally recognized and acclaimed mining value chain support company.

To be one of the leading companies to offer the best operation and maintenance services in mineral processing plants, mining, and plant hire. Provide low-cost, efficient, optimal, and superior mining solutions.

## Our Values

---

At MPG, our values are the foundation of our company culture:

**Excellence in Customer Service:** We go above and beyond to exceed customer expectations. We prioritize strong, lasting partnerships through open communication and proactive engagement.

**Pioneering Technology:** We embrace innovation to drive progress in mineral processing.

**High Integrity Level:** We uphold honesty, transparency, and ethical conduct in all dealings.

**Social Responsibility:** We are committed to environmental sustainability and community well-being.

**Teamwork:** Collaboration is key to our success, leveraging diverse talents for common goals.

**Accountability:** We take ownership of our responsibilities and deliver with dedication.

**Quality Service:** We maintain rigorous quality standards to consistently deliver value to our customers.

These values guide us as we strive for excellence in all aspects of our business.

# Products and Services

---

At MPG, we pride ourselves on offering an extensive array of services that cater to the diverse needs of our clients across the mineral processing and mining sectors. Our commitment to excellence, innovation, and customer satisfaction drives us to continually expand and refine our service offerings to meet the evolving demands of the industry

## Crushing And Screening:

Our crushing and screening services encompass a comprehensive range of capabilities aimed at efficiently processing raw materials into desired sizes and specifications. Whether it's primary crushing, secondary crushing, or precise screening, our expert team utilizes advanced equipment and techniques to deliver optimal results while minimizing downtime and maximizing productivity.

## Mineral Processing Operations And Mining:

With deep-rooted expertise in mineral processing and mining operations, we offer end-to-end solutions tailored to the specific requirements of each project. From exploration and extraction to processing and refining, our comprehensive services cover every aspect of the mining life-cycle, ensuring efficient resource utilization and sustainable practices.

## Coal Handling - Material Handling:

Our specialized coal handling services encompass the efficient management, transportation, and storage of coal throughout its life-cycle. From coal loading and unloading to stockpiling and blending, we optimize every step of the coal handling process to minimize waste, enhance operational efficiency, and ensure compliance with regulatory standards.

## Coal Trading:

Our reliable coal trading services facilitate the buying, selling, and trading of coal products in domestic and international markets. With access to a diverse network of coal suppliers, buyers, and traders, we offer competitive pricing, timely delivery, and quality assurance to meet the needs of diverse customers across the coal value chain.

## Plant Maintenance:

Our proactive plant maintenance services are aimed at maximizing the reliability, performance, and longevity of processing plants. Through routine inspections, preventive maintenance, and timely repairs, we identify and address potential issues before they escalate, minimizing downtime, reducing maintenance costs, and optimizing plant efficiency.

## Plant Hire:

We offer flexible plant hire options to meet the diverse needs of mining and mineral processing projects, providing access to a wide range of specialized equipment and machinery on a rental basis. From excavators and loaders to crushers and screens, our extensive fleet of well-maintained equipment enables clients to scale operations efficiently and cost-effectively.

## Due Diligence:

Our due diligence services encompass thorough assessments and evaluations of mining and mineral processing projects to identify potential risks, opportunities, and regulatory compliance issues. With expertise in risk management, financial analysis, and regulatory compliance, we provide clients with valuable insights and recommendations to support informed decision-making and mitigate project risks.

## Overburden Material and Mine Rehabilitation

Our team specializes in the careful management of overburden material, followed by comprehensive land rehabilitation. We reshape disturbed land, replace topsoil, and plant native vegetation to restore the ecosystem. Additionally, we manage water systems to prevent contamination, ensuring that the land is left in a stable, sustainable condition for future use.

## Business Improvement:

Our business improvement services focus on driving continuous improvement and operational excellence across mining and mineral processing operations. Through strategic initiatives, process optimization, and performance monitoring, we help clients identify inefficiencies, streamline work-flows, and implement best practices to enhance competitiveness, profitability, and sustainability.

At MPG, we are committed to delivering innovative, sustainable, and cost-effective solutions that drive value for our clients while upholding the highest standards of safety, quality, and environmental responsibility. With our diverse expertise, extensive resources, and unwavering dedication, we are your trusted partner for success in the dynamic world of mineral processing and mining.
